~~"Gathering a message of unity to the world"~~

"President Xi Jinping's speech is full of foresight and expresses his enthusiasm for national construction and world peace." Yasir Masood, deputy director of the Pakistan China-Pakistan Economic Corridor Capacity Building Center, said that China has not only achieved brilliant development achievements in China in the past 70 years; At the international level, China has proposed the "Belt and Road Initiative" to share opportunities for peaceful development with other countries and promote the building of a community of human destiny. It has been actively recognized and widely supported in today's world where risks and challenges are increasing. Developing countries such as Pakistan should learn from China's success and learn from China's long-term planning for national development, and the focus and expertise of nation-building.
